|  |   |
|--|---|
| Acetazolamide                                  | 250mg - per 1000 tablets                        |
| Acetylsalicylic acid                           | 100mg - per 1000 tablets                        |
| Acetylsalicylic acid                           | 300mg - per 1000 tablets                        |
| Acetylsalicylic acid                           | 500mg - per 1000 tablets                        |
| Adrenaline injection                           | 1mg/ml - 1ml - per 100 amps                     |
| Albendazole                                    | 200mg - per 1000 tablets                        |
| Albendazole                                    | 400mg - per 1000 tablets                        |
| Allopurinol                                    | 100mg - per 1000 tablets                        |
| Aluminium Hydroxide                            | 500mg - per 1000 tablets                        |
| Aminophylline                                  | 100mg - per 1000 tablets                        |
| Aminophylline injection                        | 25mg/ml - 10ml - per 100 amps                   |
| Amitriptyline                                  | 10mg - per 1000 tablets                         |
| Amitriptyline                                  | 25mg - per 1000 tablets                         |
| Amoxicillin                                    | 250mg - per 1000 capsules                       |
| Amoxicillin                                    | 500mg - per 1000 capsules                       |
| Amoxicillin dry suspension                     | 125mg/5ml - 100ml - per bottle                  |
| Amoxicillin dry suspension                     | 250mg/5ml - 100ml - per bottle                  |
| Ampicillin - 250mg                             | 250mg - per 1000 capsules                       |
| Ampicillin - 500mg                             | 500mg - per 1000 capsules                       |
| Ampicillin injection                           | 500mg - per 100 vials                           |
| Ampicillin injection                           | 1g - per 100 vials                              |
| Ampicillin dry suspension                      | 125mg/5ml - 100ml - per bottle                  |
| Ampicillin dry suspension                      | 250mg/5ml - 100ml - per bottle                  |
| Anti-haemorrhoid ointment                      | 30g - per 50 tubes                              |
| Anti-haemorrhoid suppositories                 | per 100 suppositories                           |
| Anti-rabies serum - purified                   | 1,000 iu - 5ml - per vial                       |
| Anti-rabies serum - purified                   | 1,000 iu - 5ml - per 10 vials                   |
| Anti-scorpion venom serum - Middle East/Africa | 10ml - per 10 vials                             |
| Anti-snake venom serum - Middle East/Africa    | 10ml - per 10 amps                              |
| Atenolol                                       | 50mg - per 1000 tablets                         |
| Atenolol                                       | 100mg - per 1000 tablets                        |
| Atropine injection                             | 1mg/ml - 1ml - per 100 amps                     |
| Azathioprine                                   | 50mg - per 100 tablets                          |
| Beclomethasone inhaler                         | 0.05mg dose - 200 doses - per item              |
| Benzathine penicillin injection                | 1.2 mega - per 50 vials                         |
| Benzathine penicillin injection                | 2.4 mega - per 50 vials                         |
| Benzhexol                                      | 2mg - per 1000 tablets                          |
| Benzhexol                                      | 5mg - per 1000 tablets                          |
| Benzoic & Salicylic acid ointment              | 800g - per jar                                  |
| Benzyl benzoate application                    | 25% - 1000ml - per bottle                       |
| Benzyl benzoate concentrate                    | 90% - 1000ml - per bottle                       |
| Benzyl penicillin q injection                  | 1 mega - per 50 vials                           |
| Benzyl penicillin q injection                  | 5 mega - per 50 vials                           |
| Betamethasone valerate cream                   | 0.1% - 15g - per 50 tubes                       |
| Bisacodyl                                      | 5mg - per 1000 tablets                          |
| Butylscopolamine bromide                       | 10mg - per 1000 tablets                         |
| Butylscopolamine bromide injection             | 10mg/ml - 2ml - per 100 amps                    |
| Calcium gluconate injection                    | 100mg/ml - 10ml - per 100 amps                  |
| Calcium lactate                                | 300mg - per 1000 tablets                        |
| Captopril                                      | 25mg - per 1000 tablets                         |
| Carbamazepine                                  | 200mg - per 1000 tablets                        |
| Cefazoline injection                           | 500mg - per 100 vials                           |
| Cefazoline injection                           | 1g - per 100 vials                              |
| Cefotaxime injection                           | 500mg - per 10 vials                            |
| Cefotaxime injection                           | 1g - per 10 vials                               |
| Cefotaxime injection                           | 2g - per 10 vials                               |
| Cefuroxime injection                           | 250mg - per 10 vials                            |
| Cefuroxime injection                           | 750mg - per 10 vials                            |
| Cefuroxime injection                           | 1.5g - per 10 vials                             |
| Cephalexin                                     | 250mg - per 1000 capsules                       |
| Cephalexin                                     | 500mg - per 1000 capsules                       |
| Cephalexin suspension                          | 125mg/5ml - 100ml - per bottle                  |
| Cephalexin suspension                          | 250mg/5ml - 100ml - per bottle                  |
| Cetrimide                                      | 15% / Chlorhexidine 1.5% - 5 litre - per bottle |

|  |                                       |
|--|---------------------------------------|
| Charcoal                                   | 125mg - activated - per 1000 tablets  |
| Chloramine                                 | 500mg - per 1000 tablets              |
| Chloramphenicol                            | 250mg - per 1000 capsules             |
| Chloramphenicol sodium succinate injection | 1g - per 100 vials                    |
| Chloramphenicol suspension                 | 125mg/5ml - 100ml - per bottle        |
| Chloramphenicol eye drops                  | 0.5% - 10ml - per 100 bottles         |
| Chloramphenicol eye ointment               | 1% - 5g - per 100 tubes               |
